**25M MULTIPURPOSE  
TARGET, MOA**

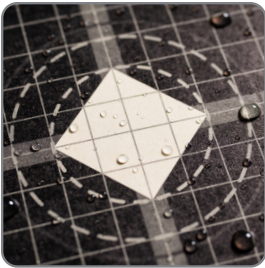

# NEW ALL-WEATHER 25M MULTIPURPOSE TARGET, MOA GRID

ITEM N<sup>o</sup> 9129

**“True-MOA” grid enables rapid and precise adjustments, solves for rounding error.**

Using traditional “Shooter’s MOA” will get you close, but precision demands accuracy. This includes accurate math. “True-MOA” adjustment grids mark each quarter-minute accurately to 1/1000”, saving time and ammunition in zeroing aiming devices. A reference table refreshes the shooter on the appropriate increment and direction of adjustment for common aiming devices. Leading lines and a central diamond clearly define the point of aim, and intuitive scoring rings expand the utility of the target for various marksmanship exercises. Durable and weatherproof *Rite in the Rain* cardstock holds up under rain and through abuse to deliver well-defined groups, no matter the conditions.

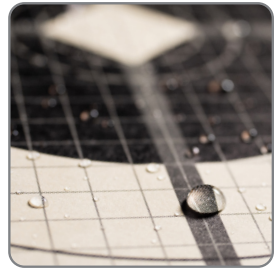

The No. 9129 is available on [RiteintheRain.com](http://RiteintheRain.com).  
Developed in collaboration with Canebrake Consulting, LLC.

“True-MOA” grid is more accurate than other approximated targets.

Reference section details adjustment increments for common aiming devices.

*Rite in the Rain* cardstock is tough and weatherproof for poor range conditions.

## KEY SPECS

Weight: 2.3 lbs

Length: 11"

Width: 8.5"

Depth: 0.75"

Pack Qty: 100
