NEW ALL-WEATHER 25M MULTIPURPOSE TARGET, MIL GRID

ITEM N^o 9130

**"True-MIL" grid provides long-needed solution
for milliradian-adjusted aiming devices.**

At last, a zeroing target dedicated to mil-adjusted aiming devices. The 9130 is printed with a 1/10-MIL grid (at 25 meters) that enables precise and efficient adjustments with no conversion required. A reference table refreshes the shooter on the appropriate increment and direction of adjustment for common aiming devices. Leading lines and a central diamond clearly define the point of aim, and intuitive scoring rings expand the utility of the target for various marksmanship exercises. Durable and weatherproof *Rite in the Rain* cardstock holds up under rain and through abuse to deliver well-defined groups, no matter the conditions.

The No. 9130 is available on RiteintheRain.com.
Developed in collaboration with Canebrake Consulting, LLC.

"True-MIL" 1/10-MIL (25M)
